Greetings Friends and Associates:

For the summer of 2010, the Starr Home will be running two five-week language camps in conjunction with Millersville International House. Basically, participants will receive English language testing and appropriate level instruction four days per week for four hours each day. Additionally, we will continue to run field trips and fun activities (see agenda below) as we always have. The cost for the five-week program, which includes room and board, food, transportation, admittance to all attractions and also tuition at MIH is \$2,500.00 per student. Transportation to and from Philadelphia International Airport or Harrisburg Airport is included, however, any other transportation arrangements or arrival/departure dates must be worked out with us. For students interested in staying for the entire summer, we can accommodate, however, some of the field trips and activities will overlap slightly. Also, for those wishing to participate in a shorter program, we charge \$600.00 per week. Please feel free to contact us to assure a firm reservation or if you have any other questions. Thank you.

First Session
